Duration: 60 hours for 2 weeks project

Period: 12 -26 April 2025

On 15 April, Mr. Cillian Foynes, the host of student Alessia De Salvo, informed Atlas Language School that the student had independently booked a return flight for 17:15 that same day.

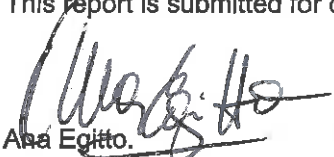

As this information had not been previously communicated to the school, the Group Leader, Ms. Rosanna Fulco, was contacted for clarification. Ms. Fulco stated that she was unaware of the travel arrangements and confirmed that the student had made this decision without notifying any of the accompanying teachers.

Subsequently, Ms. Rosanna Fulco contacted the Principal of the Italian institution. After consultation, the Group Leaders confirmed that, as the student is over 18 years of age, she had the legal right to travel independently. Nonetheless, it was mutually agreed that, for safety and coordination purposes, the student should first report to the school and then travel to the airport by taxi from there.

Upon arrival at the school, I spoke with Ms. De Salvo to ensure her wellbeing and to confirm her intention to leave. She expressed a clear desire to return home but did not elaborate further.

As an additional measure of support, I offered her a place in the transfer organised for another group departing that day. She declined this offer and confirmed her preference to travel to the airport by public bus.

This report is submitted for documentation and future reference.

Ana Egito.

Group Coordinator - Atlas Language School.
